Reed's Law: possible pair connections = $2^n - n - 1$

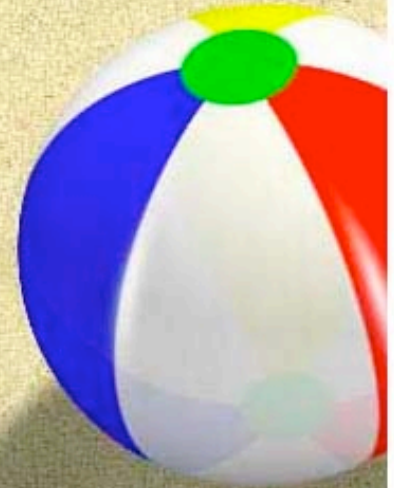

$2^3 - 3 - 1 = 4$ possible communications groups (three pairs and one group of three)

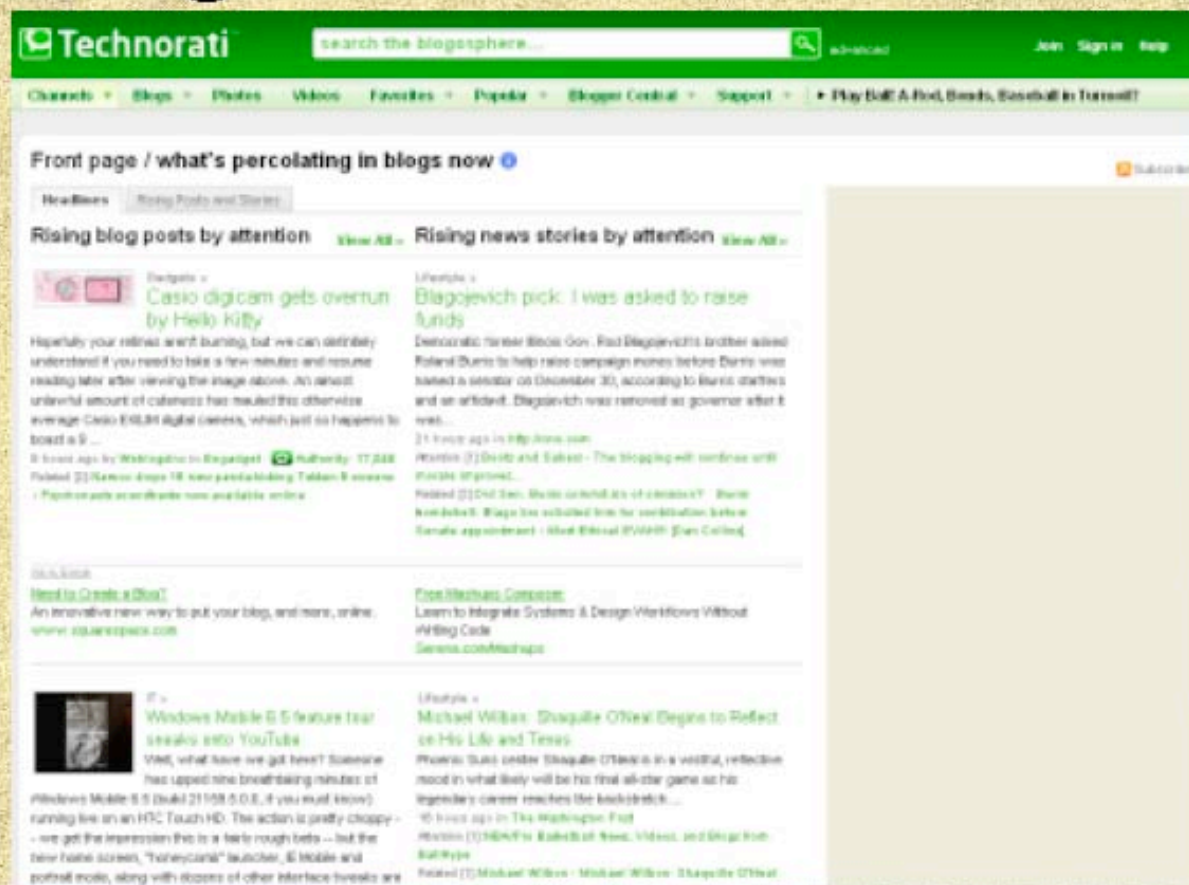

Each arrow constitutes a connection (communication in each direction) plus two-way connections among the group of three.

The growth of Communication

How do you search for blogs on Technorati?

The screenshot shows the Technorati website interface. At the top is a green header with the Technorati logo, a search bar labeled "search the blogosphere...", and links for "advanced", "Join", "Sign in", and "Help". Below the header is a navigation bar with links for "Channels", "Blogs", "Photos", "Videos", "Favorites", "Popular", "Blogger Central", "Support", and a link to "Play Ball! A Foot, Breaks, Baseball in Toronto?".

The main content area is titled "Front page / what's percolating in blogs now". It features a "Headlines" section with "Rising Posts and Stories". Below this are two columns of "Rising blog posts by attention" and "Rising news stories by attention".

Rising blog posts by attention:

- Casio digicam gets overrun by Hello Kitty**
Hopefully your retinae aren't burning, but we can definitely understand if you need to take a few minutes and resume reading later after viewing the image above. An almost universal amount of cuteness has resulted this otherwise average Casio EXILIM digital camera, which just so happens to boast a 9 ...

Windows Mobile 6.5 feature tear sheets into YouTube
Well, what have we got here? Someone has uploaded the breathtaking minutes of Windows Mobile 6.5 build 21158.5.0.0, if you must know, running live on an HTC Touch HD. The action is pretty choppy - we get the impression this is a fairly rough beta - but the new home screen, "honeycomb" launcher, 6.5 Mobile and portrait mode, along with dozens of other interface tweaks are
